Guidance about use of Solar energy

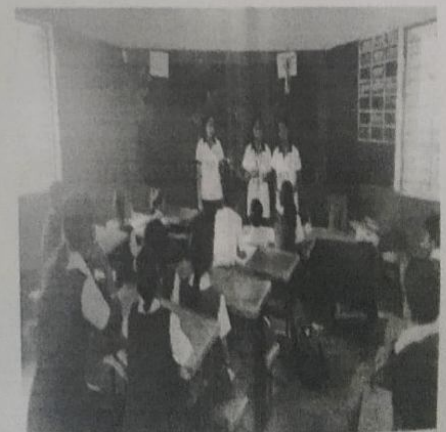

Date: 26th September 2019

Time: 10.00 to 12.00

On NSS Volunteers visited the adopted village (Nigade) and guided the villagers about use of solar energy. In Konkan region we have bright sunshine throughout the year except rainy season but few tap this highly useful and free renewable source of energy. Some of the appliances that run on solar energy like water heater, cooker, electricity for domestic but non-heavy consumption, etc. can be installed easily and are affordable to limited use. Generally these are power cuts in rural areas, solar energy is clean, free and unending source of energy to overcome this problem because all of them cannot afford to purchase inverter power backup systems which require high maintenance cost of batteries after certain number of years.

Awareness about Women Development

Date: 28th November 2019

Time: 10.00 to 12.00

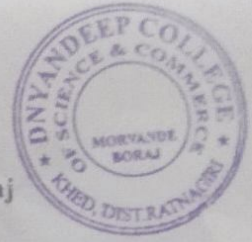

On NSS volunteers visited the adopted village (Nigade) and guided the villages about the scope and importance of women development. This was done to utilize the free time of women, generally who do not go for jobs and allow them to earn money. Also, it was to make them realize their potential. This effort was to channelize the skills they possess and finally make them financially independent to some extent. They were also given information about general safety and the techniques by which they can try to protect themselves in case of emergencies like earthquakes, floods, droughts etc.
