Wings of Fire...

Wings of fire book is written by Dr. A.P.J Abdul Kalam, honorable President of India. 'Wings of fire' is an autobiography capable of inspiring even a common man into becoming a technologist. A well composed novel which revolves around the life of Mr. Kalam a renowned Scientist as he shares his experiences and the minutest of details of his life. I like the way the book has been put together along with the delicate facts of his personal life. His family background, the pain and suffering he went through and recollected himself is commendable. The day I finished reading this book, such an influential personality impacted me very deeply and it gave me a glimpse of how the power of positive thinking can help achieve all odds.

Also, it gives an insight into the lives of Hindus and Muslims of India and their relationships among each other and among multi religious communities in India. "Wings of fire" is an account of a young boy who tries to achieve his dreams beating all odds. The story emphasizes the importance of family, relatives and friends in helping achieve each other's goals & turning dreams to reality. It teaches us to become a patriotic citizen of our country shown in the book as a determinant India & countless effort of its scientists in achieving superiority in aeronautical, space & rocket technology.

This book offers an important lesson of finding success from failures of Indian space and rocket infrastructural program. A good presentation of the role of other renowned scientists moulding our country's future. This book is full of information and is a recommended choice for every student, because this book has the influence and power to motivate a person to stand out in life. "Wings of fire" is unique model of accomplishing once goals while fulfilling the promise to its country.

Book Review - The Palace of Illusions

The Palace of Illusions by Chitra Banerjee Divakaruni is a re-telling of the Indian epic, the Mahabharat, from the perspective of Draupadi. It is rich and wonderful story-weaving. By one of my long-time favourite authors, Chitra Banerjee Divakaruni, it is completely satisfying and at the same time educational.

I was entranced from the first page to the last, and loved the very human faces put on the feats of the heroes and gods in the story. Especially Panchaali, the heroine, will stick in my mind as a faulty yet lovable woman, mistaken in much, but struggling always to find truth and love. Krishna, too, in his many-faceted character, shines as an eternal presence, only revealed in the end for his true identity.

Panchaali enters this world through a holy fire, an unwanted boon granted by the gods in addition to her brother, Dhrishtadyumna, the child destined to kill their father's greatest enemy, Drona. She marries the five Pandava brothers, the eldest of whom, Yudhishthir, bets Panchaali in gambling against Kauravas and loses.

No other author would have been able to describe Panchaali's jealousy and frustration along with her helplessness.

Julius Caesar

- William Shakespeare

Julius Caesar, is a history play and tragedy by William Shakespeare. Julius Caesar is warned of the ides of March, ignores it, and dies; plebeians are way too easily swayed; all the conspirators die too. Jealous conspirators convince Caesar's friend Brutus to join their assassination plot against Caesar. To stop Caesar from gaining too much power, Brutus and the conspirators kill him on the Ides of March. Mark Antony drives the conspirators out of Rome and fights them in a battle. Brutus and his friend Cassius lose and kill themselves, leaving Antony to rule in Rome.

The tribunes of Rome, Marullus and Flavius, break up a gathering of citizens who want to celebrate Julius Caesar's triumphant return from war. The victory is marked by public games in which Caesar's protegee, Mark Antony, takes part. On his way to the arena, Caesar is stopped by a stranger who warns him that he should 'Beware the Ides of March'. Fellow senators, Caius Cassius and Marcus Brutus, are suspicious of Caesar's reactions to the power he holds in the Republic.

Cassius, Casca and their allies plant false documents to manipulate Brutus to join their cause to remove Caesar. After doing so, they visit Brutus at night in his home to persuade him of their views. There they plan Caesar's death. Brutus is troubled, but refuses to confide in his devoted wife, Portia. On 15 March, Caesar's wife, Calpurnia, urges him not to go to the Senate. She has had visionary dreams and fears the portents of the overnight storms.

The Incredible Colonel

Author :-

Colonel Harland
Sanders

Published on :-

1st January, 1974

The book 'The Incredible Colonel' is based on the autobiography of American businessman Colonel Harland Sanders best known for his chicken restaurant chain Kentucky Fried Chicken [KFC].

Failure is an important part of our life, and accepting it without losing faith is real bravery. Every failure is a lesson which teaches us to do more better and get best out of it. This real life story of Colonel who was disappointed many times and faced too many failures but made his dream come true is really inspiring.

Colonel was born in 1890 in Henryville, Indiana. When he was 6 years old, his father passed away. He had to take care of his siblings and cook for them. In 7th grade, he left the school and started to work as a farmhand. At 16, he faked his age, to enlist in the US Army. After being discharged a year later, he started to work as a labourer at railways. However, he got fixed for fighting with a co-worker.

Colonel was forced to move back with his mother and to do a job of selling Life Insurance. But, from there too he got fired for insubordination.

Later, in 1920, he founded a Ferry Boat company. He tried to get some amount from that to open a lamp manufacturing company. Here also he had no luck in that idea. But he didn't give up.

~ Turning Point ~

At the age of 40, Colonel began selling chickens and dishes in a service station. As he began to advertise his food, his competitor Matt Stewart raised an argument. In such argument Stewart shoot out manager of colonel in return Colonel shot Stewart. Matt Stewart was injured and arrested but Colonel was set free as he fired the gun in defence. Four years later, he bought a hotel on main road but burned to the ground along with hotel. Then too he rebuilt it but was forcefully shut down due to World War II.

Following the war, he tried to franchise his restaurant. His recipe was rejected 1,009 times. Colonel's "secret recipe" was coined "Kentucky Fried Chicken", and quickly became a hit. Colonel sold it and pursued his dream of spreading KFC franchises and hiring KFC workers all across the country.

After years of failures and misfortunes, Colonel finally hit it big. KFC expanded internationally and he sold the company for two million dollars. At the age of 90, Colonel passed away due to pneumonia. Now, KFC is located in 118 countries.

The story inspires to try hard and believe in yourself even after many fails. Colonel didn't let anything or anyone defeat him, and created one of the largest fast food chain in the world. Hence we should try hard after failure and not to give up.

"I just believed that any failure I had, gave me the opportunity to start over again or try something new"
